JULIAN BYRD - - - - - Manager

The man with a good sage brush farm in the Harney county is much better off than lots of people even though he is cut off from markets and endures more or less hardships. Harney county will some day be furnishing the western portion of the state with wheat.

The surveyors who have been working on the route over Huckleberry flat have withdrawn from the field, and it is understood that that route has been abandoned. It is not likely that the road will be extended this year, and if anything is done it is possible that the surveyors may get into the field on the route along the Middle Fork. - Blue Mt. Eagle.

Home seekers are now moving and every day there passes this point emigrant wagons headed for Inland Oregon. They come from Idaho and they come from Washington; many of them passing through Harney county and going to Lake and Klamath counties. It is the opinion of those now on the road that this season will witness a great many prospective settlers headed in this direction. - Blue Mt. Eagle.

While the rains of the week have not been general, a considerable portion of the country has received quite a generous supply of moisture and it has proven beneficial at the growing crops. Grain has been quite backward but it has not been damaged by the cold weather and with the usual June rains and warm weather we may expect good crops. Fruit prospects are not very encouraging at this time on account of cold nights but still we may expect a very good yield of apples.

BIG CELEBRATION PLANNED FOR 4TH.

Development Congress, Horse Racing and Baseball Games—Several Days.

The committee to secure finances with which to properly celebrate the 4th of July was more or less discouraged the first of the week but M. L. Lewis and Dell Dibble got busy and succeeded in raising quite an addition to the fund and now sufficient is subscribed to make the Eagle scream loud.

It is planned to have at least four days and possibly six. Invitations have been sent to Grant and Malheur counties suggesting a three team base ball tournament to cover the 1st, 2nd, 3rd, and 4th and should the outside counties accept it is likely such will be the program for those days with some horse racing added on the 3rd. It is proposed to give at least \$1200 for horse racing during the week and possibly more if the ball teams fail to respond. Should the latter not come the racing will be substituted.

The celebration proper will be held on Saturday, the 3rd, and the committee hopes to make it one of the best yet undertaken. A parade with floats, liberty cars, etc. with patriotic addresses and music will be a feature of the forenoon followed by a basket dinner and barbecue at the fair grounds. The afternoon will be taken up with base ball, horse racing and other sports.

The program for the first two days will be so arranged as to not conflict with the Oregon-Idaho Development congress which will hold a two days session in this city. The program for this congress is in the hands of the Commercial Club and no doubt full announcement will be made within a short time.

The celebration committee cannot announce a definite program until responses have been received from the ball teams of Grant and Malheur counties but the people may be assured of a good time. The band will give a concert on the evening of June 30 and the same boys will be hosts at a big ball to be given on the evening of July 2.

A telephone message has been sent to Prineville assuring the horsemen attending the race meet there this week that good purses would be hung here will bring a big string of gallopers to participate in events and every one should make it a point to be here for the entire celebration. The Times-Herald would par-

ticularly urge the citizens of Harney county to attend the sessions of the Development Congress. This is an organization formed for the purpose of securing proper recognition of this vast isolated territory and do all possible for its immediate development, including transportation. The men who have charge of the affairs of this organization are broad in their views and are doing a work that the people of Harney county should appreciate. There will be prominent speakers from various sections of Oregon and Idaho and they will have something good to tell the people of this county. Give this meeting the encouragement it deserves by attending every session held in Burns. Local people will assist in making the meetings attractive in the way of music. The band will be ready at any time to assist, in fact the people of Burns will see that the entire time will be not only profitable but enjoyable. The Times-Herald hopes to give the full program in its next issue, including a list of the delegates and outside speakers to the Development Congress.

FAIR WEEK SPEED PROGRAM

The speed program for the Harney County Fair to be held Oct. 5-6-7-8-9, is the most attractive ever put out by the local organization. This was made possible by the liberal contribution and co-operation of the business men of Burns who are determined to do their part toward making this fair the most successful in the history of the county.

The liberal purses hung are sure to attract a class of fast horses and the dates arranged are such as will fit with the interior race meets making it possible for horse men to participate in adjoining counties.

For the benefit of horse men we give the speed program:

The Association reserves the right to change, alter, postpone or declare off any and all races for a good and sufficient cause.

DRY FARM EXPERIMENT STATION.

Last Monday was the date set by the board of regents of the Agricultural College to select the site for the Dry Farm Experiment Station, but nothing has been received here as to any action taken. The Times-Herald sent a phone message to Portland last night asking what had

been done in the matter, but no reply has been received. Harney county people have been very active in their efforts to secure the location here and from what information the manager of this paper had secured before leaving Portland last Saturday evening, we had a very good prospect to secure it. The matter depends here upon the entire board being present. If every member were present and given accurate data as to conditions throughout eastern Oregon, we feel Harney county would be first choice, as no other location could possibly offer so large a territory of agricultural land capable of development. The elevation, climatic conditions and soil types were all in our favor while the only disadvantage seemed to be our lack of transportation. The Times-Herald fully expected to have some definite news regarding this matter today, but is disappointed. However, if the meeting has been postponed we still feel encouraged, as our chances are made more favorable.

WE'LL TRY AND ANSWER.

One of our rural lady subscribers has asked us to tell her the name of the 1909 ladies summer hat, and if they can be made at home, we don't know the name of the sky-piece, but they can easily be made at home by following the directions given below.

Take one extra sized wire basket. Weave in and out of the wire meshes 24 yards of pink ribbon, 16 yards of orange chiffon 42 yards of lavender lace, 11 yards of red calico, a mother Hubbard, a bath robe and a kimono. Stick a pine apple jauntily over the left ear and underneath the brim of the same side sew two turnips. At the back hang a few strawberries and a couple of buckwheat cakes.

On top a bunch of bananas is always a fait. In front it is well to pile whatever is left over. Weimerstrasse made a particularly fetching front and a string of pennants around the edge of the hat provides a neat border. - Ontario Argus.
